47	12 - 12.5	30.3

At ECCO we are committed to making your online shopping experience as easy as possible. The best way to ensure that you order the right size is to measure your feet and then compare your measurements to the size chart below to find your size. Just follow these four simple steps to accurately measure your feet.

1 To measure your feet from heel to toe, all you need is a piece of paper, a pen and a ruler.

2 Place the paper on the floor against a wall. Place your foot on the piece of paper, with the heel against the wall.

3 Mark the longest part of the foot on the paper. Repeat for both feet, as it is common to have different feet sizes, then measure the distance.

4 Compare your measurement with the appropriate size chart below. Use the measurement of your longest foot when choosing which size to order.
